## 1 convert hours into minutes

```
#include <stdio.h>

int main() int hours; int minutes;

printf("Enter the number of hours: ");

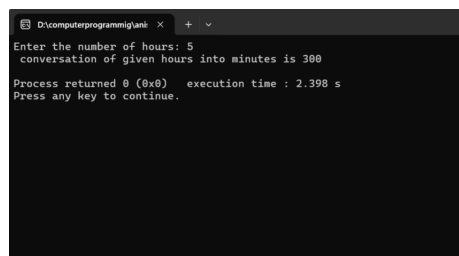

scanf("%d", &hours);

minutes = hours * 60;

printf(" conversation of given hours into minutes is %d \n",minutes);

return 0;
```

## 2 output

```
D:\computerprogrammig\ank
Enter the number of hours: 5
conversation of given hours into minutes is 300
Process returned 0 (0x0) execution time : 2.398 s
Press any key to continue.
```
