1 convert dollar into pounds

```
#include<stdio.h>
```

int main()
float dollars,pounds,rupees;

```
printf("enter the amount of dollars: ");
```

```
scanf("%f", &dollars);
```

rupees = dollars * 48; pounds = rupees / 70;

```
printf("your converted pounds are %.2f\n", pounds);
```

return 0 ;

2 output
